

Quality Policy Statement

“One System, the Business Management System (BMS)”

In support of our business objectives and key issues, the company is committed to maintain a practical, relevant and comprehensive Business Management System based on AS 9100.

This is central to the delivery of our business objectives, and commitment to customer satisfaction, continuous improvement and meeting all applicable regulatory and statutory standards.

Everyone in the business understands their role and responsibility for applying this Quality Policy in the performance of their tasks and through appropriate and aligned objectives.

“If you’re not operating to the BMS you’re not operating”
