

Trainee Mechanical Engineer

Full-time (40 hours pw)

Redruth, Cornwall

Salary £22k to £24k

Company Overview:

David Paull Engineering is a sub-contract precision engineering firm established in 1952 providing machined parts for markets including the aerospace, defence, oil & gas, marine, and commercial sectors. Accredited to the AS9100 rev D quality standard, David Paull Engineering take great pride in the high-quality service it provides to its customers.

The role:

DP Engineering knows that its true wealth lies in its people, and we have been very successful at selecting clever people, nurturing their abilities, and turning them into highly skilled engineers. We are now continuing this by creating a new trainee role within our Engineering department and invite applications to apply for this exciting position.

If you are selected, you will become a member of our Engineering Team and given a role within it. By introducing you to Cad\Cam, process control, inspection, quality management along with being exposed to the engineering environment your skills will mature.

The goal is to develop your skills, so you establish yourself as a member of our highly skilled team, benefiting from working in a challenging and rewarding environment.

The role is aimed at a wide range of applicants. It is not gender, age or experience specific and is in place to bring intelligent and motivated people into our business to strengthen our team and enable us to realise our aspirations.

The ideal applicant would:

- Display the ability to fit into the DPE team.
- Have an Engineering or Science based qualification.
- Have sound IT skills.
- Have an intelligent, practical, and dynamic disposition.
- Be prepared to participate in the interactive and supportive culture.
- Have a desire to learn and possess a strong work ethic.

What We Offer:

Working at David Paull Engineering you will benefit from:

- £22 to 24k per annum, dependent on ability.
- 4-day working week, 40 hours.
- 28 days' (4 weeks) annual leave.
- Company pensions scheme.
- Staff Benefits scheme.
- An environment in which to learn and develop.
- A future within DPE.

Apply to:

Send your letter of application outlining your key attributes and why you should be considered for the role to Richard Trevail – trevail@dpengineeringltd.co.uk
